

# DC 20-02 Report Date Adjustment Message

OPMD updated 20-02 MER cycle report dates to 30 September 2020 for all vacant requisitions (VOU) due to the Army-wide preparedness and response to Coronavirus (COVID) 19 outbreak that has been put in place until at least 11 May 2020. This change was implemented in an effort to maximize flexibility to report dates once officers are given RFOs and after the stop move is lifted.

For officers who are currently in receipt of RFOs and were affected by the COVID-19 stop move, OPMD is working to push their report dates out to a date NLT 30 September 2020.

Once the stop move is lifted, OPMD recommends the unit emails the Account Manager and Career Manager with the recommended report date adjustment based upon the agreed-upon date with the officer, so that the Account Manager and Career Manager can make the adjustment on the spot and release the RFO or amendment as applicable.

Contact your OPMD Account Manager for additional information.
